January			<p>Billy Bob, Your column in the December issue of <i>WorldWide Drilling Resource</i>® [on page 28] resonated with me. My wife and I are both petroleum engineers. She is a third generation oil and gas person. We both read your magazine every single month.

There are so many columnists who are really terrific writers. Last month's [July 2022] article by Tim Connor "Work," was one of the BEST EVER. It expressed exactly the way Ann and I feel about working in the oil and gas business. Despite its many ups and downs, we never want to retire.

Thank you for your great magazine. Best of luck to all of you.
